

# Orange County National Board Certified Teacher Network

California State University at Fullerton is proud to coordinate the Orange County National Board Certified Teachers Network. The OC NBCT Network provides contact information and resources for NBCTs in the local region. NBCTs in the network receive updates from NBPTS on Candidate Support Provider training, Advocacy training and other leadership opportunities. National Board candidates can use our Network database to locate local NBCTs who are trained Candidate Support Providers.

## OC NBCT Network Mission Statement

Our mission is to build on the foundation of the National Board for Professional Teaching Standards and its five Core Propositions. Our vision reaches beyond the classroom as we create a community of professional educators, provide service to the teaching profession through candidate outreach and support, and contribute to the knowledge and implementation of teaching practices that positively impact learning outcomes for all students. In partnership with California State University, Fullerton we strive to be a symbol of professionalism and accomplished teaching in the region.
