Focus of the Major	Prepares students to drive positive changes in education by addressing discrimination and inequality. Through interdisciplinary coursework and field experience, students gain the skills to advocate for social justice and equity in schools while learning alongside a supportive cohort.	Focuses on human development, current research, fieldwork observation, and the synthesis of all of these.	An interdisciplinary look at relationships between Arts & Humanities, Social Sciences, Social Theory, & History of Science and Technology.	Prepares students to strengthen diverse communities and improve the lives of others by teaching theoretical knowledge, self-reflection, and practical counseling skills.
