Units	54 units	51 units	51 units	54 units
Focus of the Major	Prepares students to drive positive change in education by addressing issues of discrimination and inequality. Through interdisciplinary coursework and hands-on experience, students gain the knowledge and skills to advocate for social justice and equity in schools.	Focuses on human development, current research, fieldwork observation, and the synthesis of all of these.	An interdisciplinary look at relationships between Arts & Humanities, Social Sciences, and Social Theory.	Prepares students to strengthen diverse communities and improve the lives of others by teaching theoretical knowledge, self-reflection, and practical counseling skills.
