The Center for Careers in Teaching Offers:
- Comprehensive academic advisement for Cal State Fullerton students planning careers in education
- Academic counseling support to future teachers currently attending one of our partner community colleges and who plan to transfer to CSUF
- Information and resources related to the Cal State Fullerton teacher education programs

CSET Test Validation Change
- Effective on April 1, 2017 the CSET scores valid period has been extended from five to ten years in California.
- Examinations for certification passed after April 1, 2007 will now come under the ten-year window of validity, with the exception of examinations that have been discontinued
- The longer term of validity will prevent many credential candidates from being forced to invest added time and expense in retaking previously passed examinations whose terms of validity expired.

Let’s Hear From You!
Thank you for reading this edition of the CCT Newsletter! We aim to give our future teachers what they need to be successful and would love to hear your feedback. We would appreciate if you would take our 1-minute survey and share your thoughts and suggestions about the CCT newsletter. To take this mobile-friendly survey, please visit the link below to get started: http://fullerton.qualtrics.com//SE/?S=5V_ekA8dk19GG3U1hP

Advisor’s Corner
What have you found useful in your advising sessions? Is there a piece of information from an advisor you think every other student should know? The Navigator newsletter will be featuring some tips from each of our advisors over the next editions; if you have any suggestions for what kind of information you think students like you would like to hear, we’d love to hear from you! Please email your suggestions to jcalabrese@fullerton.edu.
Getting to know the SSMPP

By CCT Advisor, Caren Bautista

1. What is a SSMPP?

A Single Subject Matter Preparation Program is a state approved course work pathway for future Middle School / High School teachers to demonstrate their knowledge in their chosen content area.

2. Does completing the SSMPP replace taking the CSET?

Completing an approved SSMPP is equivalent to the CSET so candidates who successfully complete the coursework would not be required to take the CSET.

3. Who is eligible to participate in the SSMPP?

Any student interested in becoming a Middle/High School Teacher.

4. What are my next steps if I’m interested in the SSMPP?

Meet with a CCT adviser to identify a SSMPP option to match your teaching goals. You can also choose to meet with the SSMPP coordinator or adviser within your major.

5. What SSMPP options are available @ CSUF?

English, Mathematics, Kinesiology, Social Science (History, Geography, Economics, Political Science), Music, Spanish, French, and English Language Development.

For more information about your specific major go to: http://ed.fullerton.edu/cct/
