Preparing for Finals: Survival Guide

The Center for Careers in Teaching is Hiring!!

1.) Start early
If you always start ahead of schedule, you won’t have to cram the night before an exam.

2.) Ask questions
Your teachers, professors and TA’s are there to help! Ask them questions regarding the material and the exam so that you’re prepared when test time arrives.

3.) Create a study schedule - and follow it
Pace yourself, but also remain disciplined. Dedicate time to your studies and reward yourself at the end of each study session.

4.) Organize a virtual group study session
It can be helpful to study in groups – sometimes. Evaluate whether or not studying with others will be beneficial to the subject as well as your learning process.

5.) Lastly, take breaks and stay well rested!
You won’t be able to memorize or comprehend all the material at once. Balance is key – ensure that you reward learning with breaks to recharge and relax.

Are you in need of a part-time job? Then please consider applying for the Student Assistant position in the Center for Careers in Teaching (CCT).
