It's Time to Celebrate Teachers!

Join us this week as we celebrate teachers! They deserve our thanks all year, but this week it's especially important to let them know how much you appreciate them. Here are some ways teachers are being celebrated across the country:

Tell Us How We're Doing!

The Center for Careers in Teaching needs your input so we can better serve our students. This last year we were able to adjust our services to a virtual setting. So as we prepare to return to campus, this is a great opportunity to reflect on what we've learned and whether or not we should incorporate these changes to better meet your needs. Please complete the following survey to share your feedback with us. The survey should take no more than 10 minutes to complete. All students who submit a completed survey by May 28th can opt into an opportunity drawing to win CSUF gear. We look forward to seeing you in-person soon!

Click [here](#) to take the survey. Thank you!

WEDNESDAY MAY 12 4:00PM-5:30PM *The California Global Education Project at UCSB and CSUF presents:*
TEACHING CRITICALLY IN COMPLEX TIMES
Centering Social Justice in The Classroom

Join [Dr. Alison Dover](#) and educators from across California as we consider what it means to "teach for social justice" in contemporary classrooms. During this session, we will collectively examine strategies for teaching for social justice in complex classroom spaces, including those where emphases on standards, high-stakes accountability, and dominant narratives restrict and regulate teacher autonomy. After analyzing examples of student-driven, social justice-oriented, and standards-conscious curriculum, participants will discuss their own curricular and pedagogical goals, as well as the next steps for putting their vision into practice.

REGISTER: bit.ly/cgepdover

This session is facilitated by [Dr. Alison Dover](#), Associate Professor in the Department of Secondary Education at California State University, Fullerton. Dr. Dover has a doctorate in Social Justice Education from the University of Massachusetts, Amherst, and has taught K-12 and teacher education in diverse high school and university settings throughout the United States. Dr. Dover works extensively with local and national students, educators, and school communities to promote equity, multicultural education, culturally and linguistically responsive pedagogy, literacy education, and standards-based education in K-16 contexts.
