Online Teaching Expectations

The Online Instructors in Elementary and Bilingual Education should

- promote student interaction, communication, and collaboration.
- relate the content of this course to the broader educational context.
- encourage students to be actively engaged in their own learning.
- be actively present in the course.
- be available for support at the times identified on course documents (set online office hours).
- promote professional and ethical uses of technology.
- use a range of technologies and activities to promote student learning.

For assistance with effective online teaching, please participate in FDC workshops.
