

FACULTY INFORMATION FOR COLLEGE OF EDUCATION USE OF QUALTRICS

The Qualtrics program is licensed to the College of Education. The cost of the license is covered by the Ed.D. program as a part of the effort to enhance our doctoral research culture in the College. We have unlimited access to set up surveys with no limits on the number of respondents or questions for all faculty, staff, and students within the College of Education.

Conditions of use

- All users must comply with the limits of this license. It would be unprofessional and probably illegal to share log-on information with those who are not covered by the license terms (eg. someone from another college).
- All research conducted using the license must comply with IRB requirements if the research is to be published. Course assignments and normal program assessment uses are not covered by IRB requirements.
- Student work using this license must be supervised by faculty. Each student who is given the log-on information must complete the Student Qualtrics form that is forwarded to Dr. Adler.
- The license is to be used only for work related to CSU Fullerton activities. It is not for personal or business uses unrelated to CSU Fullerton.

Log-on address

Assistance

The license provides unlimited technical support and training from Qualtrics. Support can be accessed from [Qualtrics University](#). There is also a [calendar](#) of on-line trainings.
